LAND DRAINAGE ACT 1991

APPLICATION FOR CONSENT TO DISCHARGE SURFACE WATER

Planning application no:

Description of application:

Applicant: Name:

Address:

Telephone No:

Agent: Name:

Address:

Telephone No:

1. I hereby apply to the Board for consent under the Land Drainage Act 1991, and their Bylaws, to discharge surface water into the drainage system maintained by the Board from the above proposed development.
2. I hereby certify that the total of the impermeable area created by the development is shown in pink on the enclosed site plan and amounts in total toacres.
3. I undertake to pay the Board, before any development commences, the one-off contribution that is required by the Board for dealing with the increased rate of surface water run-off from the development.
4. I understand that from 1st April 2014 until 31st March 2015 this one-off contribution amounts to £72,500 for each impermeable hectare plus VAT, and that for payments made after that date the figure will be varied in line with inflation.
5. I understand that it is an offence to directly or indirectly increase the flow or volume in any watercourse without the prior written consent of the board and that no development may be commenced until such consent has been obtained.

6. I agree to inform you in writing of the dates on which I intend to commence development and on which development is completed and further agree that the Board may inspect the development while work is in progress at any reasonable time to ensure that their requirements are met.
7. I understand that any consent granted in connection with this application is given to meet the requirements of the Land Drainage Act 1991 and the Board's Byelaws only, and I must ensure that any other necessary consents are also obtained.

Details of the development and Surface Water Outfalls
